

SP 8.4 Orders with DOE Contractors

Substantive changes made for the 3-30-06 revision:

1. Deletes reference to “M&O” (management and operating) in the title and throughout the SP, except where specifically applicable, because there are more types of DOE contractors than just M&O contractors.
2. Simplifies the wording of the PURPOSE section of the SP.
3. Moves the reference to commercial sources from the SCOPE section to the first paragraph of the PROCEDURES section.
4. Re-words the second exception in the SCOPE section so it applies more broadly.
5. Updates the DEFINITIONS section to be consistent with the SP’s application to more than M&O contractors.
6. Adds a definition for “Inter-Entity Work Order (IWO)”.
7. Changes the third bullet of the “DOE Contractor Order Criteria” so that it applies to the performing contractor.
8. Deletes references to “classified” and “non-weapons work” because they do not apply to the LBNL site.
9. Adds a new paragraph on the subject of “DOE Contract Identification and Verification”.
10. Adds a new paragraph on the subject of “Payment Terms”.
11. Adds a new paragraph on the subject of “DOE Contractor Orders Over \$1M”.
12. Modifies the RESPONSIBILITIES section to be in accordance with the changed procedures.
13. Adds both of the REFERENCES. The previous version had no REFERENCES section..
